## Experience

**Raketech /** Web Developer Intern
November 2019 - 2020, St. Julians, Malta

Worked alongside the developer's team and SEO executives in the implementation of features, and maintenance of Wordpress managed websites. A substantial task included implementing a API sportsbook with a wordpress block that shows live betting data..

**ICTSA /** Marketing & Media Officer
December 2018 - PRESENT, Msida, Malta

Part of the executive, of the student body which represents Maltese ICT students. My primary task includes designing marketing campaigns to interest students to attend educational and social events.

**ESTA /** Junior IT Advisor
May 2017 - July 2017, Brussels, Belgium

Assisted colleagues to transition to the use of laptops, instead of desktops within the organisation. This included the procurement of the necessary hardware and the setting up of the environment for simple and secure use.

## Education

**University of Malta /** B.Sc. IT Software Development (EQF level 6)
October 2018 - PRESENT, Msida, Malta

"A dynamic course to keep students updated with the latest technological and methodological arsenal for the creation of quality, long-lasting commercial software solutions."

**St. Aloysius College** / Post-Secondary Education (EQF level 4)
September 2016 - June 2018, Birkirkara, Malta

Studied with a focus in pure mathematics and computer studies (advanced levels subjects). In addition physics, accounting and French were studied at an intermediary level.

**St. Michael School** / Secondary Education (EQF level 2)
September 2016 - June 2018, Santa Venera, Malta

Obtained the multiple O' Levels such as Mathematics, Maltese, English and Accounting.

## Languages

**Maltese** / Mother tongue

**English** / Fluent

**French** / Reading & Writing
